Organize your visit

The fair takes place in different stands. You have several ways to visit the exhibitors' stands: either by clicking directly on the stand of your choice.

Either via the navigation menu on the top left which will show all the stands.

Either from the search engine by typing the keywords of your choice (eg master, EU studies, etc.).

At any time, a help menu is at your disposal by clicking on the icon ?

4

Fine-tune your research to find the best opportunity for you

At any moment, you can decide to fill in the form available behind the icon "My project" on top of your screen. ✓

By filling this form and saving it, you will be given a selection of stands offering matching opportunities. Click on the offer or on the logo of the stand and you will be directly redirected to the stand you are looking for. By clicking on the offer of your choice, you can inform the institution that you "are interested".

Store info on the different stands

Consult the exhibitor websites, download their brochures, watch their videos and chat with exhibitors present on the stand. If they are offline, you can directly send them an email with your questions.

5

Interact with the advisors on the stand!

As in fairs, you can converse with the exhibitors. A green bubble indicates whether the advisor is online.

If the advisor is online, you can start chatting

- by sending a message

- by videoconference by clicking on the camera icon when you are invited to.

If the exhibitor is already busy with someone else, you can leave a message. He will be informed of your visit and will contact you as soon as possible on the platform or by email.
